

Project Case Study

Waveney - Dacorum Borough Council - Osborne Property Services

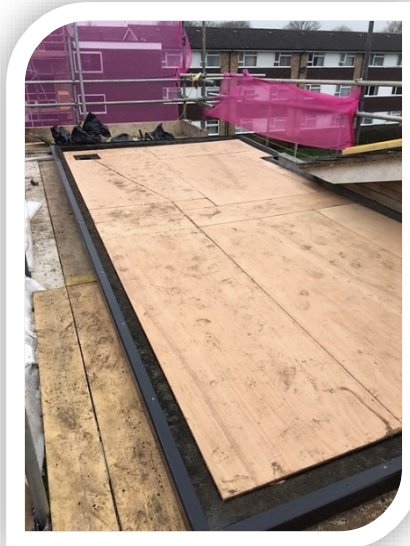

UK GUNITE LIMITED

On request from our client Osborne Property Services, UKG were asked to inspect secondary roof area to Waveney due to excessive water sitting on flat roof area. It was discovered the existing falls were moving surface water away from outlet.

As a result there was ponding water and a build up of moss and algae which is severely damaging to felt roof systems. This area was cleaned and then new falls form on marine ply a layer of Profatherm Base SA carrier sheet was layed to entire flat roof area with ProBase PES SA to detailing areas.

Client

Osborne Property Services / Dacorum Borough Council
